

August 2025

Dear Parents,

We are pleased to welcome you and your family to Champions. Whether you are joining us for the first-time this year or returning for another year, this academic year promises to be another exciting and expansive year.

You may have noticed several changes around campus including:

- **One Centralized Entry Point.** Drop-off and pick-up continue to be at the front entrance underneath the pavilion. This location is the reception area for our School Office. This single point of entry to the campus allows us to close up and secure the campus. Parents find this location convenient and easy to find.
- **Renovations.** All campus buildings were painted with fresh colors last summer. New irrigation, fresh landscaping, new fencing, and newer, larger pavement were installed during this spring.
- **Upgrades.** Our sanctuary is the central HUB of student life. We use this space for morning assemblies, daily dismissals, chapel, productions and musicals, family meals, and other student activities. The entire space was upgraded including all new seating and decor; all new audio, visual, and lighting equipment; and all new cameras and livestream equipment.
- **More Students.** We expect to welcome 100-120 more students this year. We thank God for the increase, and we thank our parents who trust us with their children. We have increased our office and teaching staff to ensure our instructor-student ratio remains below 15:1.
- **Leadership.** As the Lead Pastor, I serve as the Head of School. Our assistant principals and managers provide the operational leadership we need, by interacting with you and your children on a daily basis. As a visionary leader, my gifts help the organization to think strategically, make sound financial decisions, and hire and develop the best teachers.

If you have any questions, please contact us by texting or calling us at our School Office phone number at 863-420-2885.

Sincerely,
Pastor Kevin Slack, MEng, MA, PE
